**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jon Christensen on 9/1/06.

2. The application has been amended as follows:

Regarding the specification, page 1, after the title, the following statement has been added: --

This is a Divisional Application of U.S. patent application Ser. No. 08/716,587,668, filed September 18, 1996, now U.S. Pat. No. 5,889,867. --

Regarding claim 33, line 6, the word --matrix-- has been added at the end of the line.

Regarding claim 33, line 7, "a loudspeaker" have been replaced with --loudspeakers--.

Regarding claim 33, line 10, "the loudspeaker" has been replaced with --the loudspeakers--.

Regarding claim 35, line 15, "the plurality" have been replaced with --a plurality--.

Regarding claim 37, line 15, "the plurality" have been replaced with --a plurality--.

Claims 38 and 40 have been cancelled.

Art Unit: 2615

3. The amendment for claim 33 corrects the error by stating plural loudspeakers of the first loudspeaker-listener layout in order to have stereophonic sound image for the first listener. The amendment for claims 35 and 37 correct minor informality. Claim 38 has been cancelled because the invention as claimed reads on the prior art, Cooper et al. Claim 40 has been cancelled because the invention as claimed would have been obvious in view of Cooper et al.

4. The claimed loudspeakers are not speakers in the headphones, earphones or the similar device that does not introduce cross-path transfer function from one speaker to both ears.
